

*"Building Self Esteem Through Academic Excellence"*

### **Administrator Report**

Prepared for November 7, 2016 APC Meeting

To: Academic Policy Committee

The first quarter ended October 21 and we conducted Parent-Teacher Conferences the 27<sup>th</sup> & 28<sup>th</sup>. There was no negative feedback from the conferences and we will basically end up with 100% participation in the end since some parents will make their conferences up.

The Parent Teacher Committee (PTC) had a meeting with several parents. They are getting organized and will have a set of Bylaws to present to you. They helped organize the food during conferences and did an amazing job. The entire staff was amazed at the amount of food that was brought by parents.

No students were placed on Behavior Contracts during the first quarter. One student has been placed on an Academic Contract.

ABCS students are involved in boys & girls basketball and in Robotics.

The teaching staff meets collaboratively every Monday during lunch. We continue to do professional development around the Danielson model of effective teaching. We have finished with Domain 3 about instruction. I started doing coaching observations with teachers about classroom environment.

ABCS now has a facebook account that we will use to get information out to parents. We will still send the weekly reminders using e-mails as well.
